University of Newcastle, 2003
Newcastle, Australia

Certificate in Graphic Design (Advanced)

Hornsby College of TAFE, 1999
Sydney, Australia

RECENT EMPLOYMENT

May 2009 – present

Capture Pty Ltd - Senior Front-end Developer

In this position I am the senior front-end specialist in a small team working to develop cutting-edge commercial websites. The company's clientele included some of Australia's largest businesses such as Guinness Australia, Budget Direct and Bundaberg Rum. This role has involved exposure to various content management systems such as Joomla, NEO and MOSS, as well as in-house custom-built CMS's.

September 2008 – May 2009

Self Employed - Freelance Web Design & Development

Building small/medium scale websites from scratch concept to final implementation. Includes all elements of web development from concept & graphics design to programming (PHP) and database development and implementation (MySQL). Part of this job involved working with the WordPress CMS as well as developing simple, custom-built CMS's in PHP.

July 2007 - July 2008

Pfizer Ireland - Technical Engineer, Graphic Designer & Web Designer

12+ month contract in Cork, Republic of Ireland. This varied role, working for one of the world's largest Pharmaceutical companies, included IT technical support, corporate graphic design and Intranet maintenance.

December 2006 – May 2007

Nextgen.net - Software Engineer & Web Designer

During this time I worked on large-scale websites as part of a medium sized development team. Examples include the websites for Supré, Kostya Tsyzyu, SunCorp, Virgin, Rams Homeloans and the NRL. My specific role entailed updating table-based designs to newer CSS layouts that conformed to W3C standards. I also worked with SQL Server 2005 and ASP.Net (Jscript).

May 2006 – November 2006

Ambrow Pty. Ltd. – Website Designer & Developer

This open-ended contract involved working in a small team to build the online ecommerce site, ToysWholesale.com.au. Over 2000 stock items were photographed and inserted into the database. The website was built using ASP and MySQL.

May 2005 – May 2006

Austereo – "Internet Producer" (Website manager)

In this 12-month maternity contract, I was ultimately responsible for the websites relating to the two largest Newcastle based radio stations, NXFM & KOFM, but also created animated flash adverts for all of the other Austereo radio stations, nation-wide. In addition, I worked as a graphic designer and was responsible for large-scale adverts including motorway signage and stadium ads for the Jumbo-TV.

CAPTURE

July 19th, 2010

To Whom it may concern,

Victor was employed as an HTML/CSS developer at Capture from July 27th 2009 to August 7th, 2010. He is a highly experienced developer who is passionate about his work and the web industry.

Victor is extremely well versed in all current and emerging front-end technologies and takes time to ensure his work is compliant with web standards.

Victor has worked on a wide range of projects in his time at Capture and always proved himself capable and adept at problem solving.

He works best as part of a team when he has the opportunity to interact and engage with our developers. He is also good at determining a project's requirements and highlighting potential risks in design implementation.

I would recommend Victor for any HTML/CSS role. He is more than capable working on marketing based websites, software applications or email marketing campaigns.

Regards

Jean-Claude Abouchar
Director

Pfizer Ireland Pharmaceuticals

28th July 2008

To whom it may concern,

Victor Webster worked for Pfizer Ireland Pharmaceuticals from July 2007 to July 2008. During this period, Victor worked in the IT group as a Service Desk Engineer. Victor combined this Service Desk role with some graphic design work for Pfizer, including a web-based 'IT Awareness' campaign, and an electronic and print campaign publicising new Service Desk services.

During his time with Pfizer, Victor has demonstrated flexibility, technical proficiency and good teamwork abilities, making him a valued member of our group. His excellent design ability has enabled us to communicate very effectively with our customers on important initiatives.

Victor left Pfizer in July 2008, as the Service Desk on which he worked was outsourced. I wish him the best for the future and have no hesitation in recommending him for any roles which he may pursue.

To Whom It May Concern:

**REFERENCE
VICTOR <VIC> WEBSTER**

This letter is to confirm that Victor <Vic> Webster worked, under my direction, as the "Web Master" at Radio Newcastle for a 12 month period <one year> filling a maternity relief position from 5 May 2005.

During this period Vic competently fulfilled the role. He was personable, professional and demonstrated a high level of aptitude and technical knowledge. His enthusiasm and creative flair was an exceptional asset to our team not to mention his ability to always go the extra mile satisfying our internal and external clientele.

A huge part of Vic's role was to work closely with other team members meeting extremely tight and sometimes unrealistic deadlines. It should also be noted Vic has a great ability to project manage multiple tasks and competing deadlines, however always producing work at the highest level.

If you require any further clarification of Vic's ability, please do not hesitate to contact me on 0414 436 712.

Yours faithfully,

Brad Matheson
